ENGINEERING SOLUTIONS TO ALL YOUR CABIN INTEGRATION REQUIREMENTS

Aerospace Engineering Solutions EASA.21J.722, UAE DOA/181, ECAA/AW/AE/10151/R1 UK Office: 6 Freeport Office, Century Drive, Braintree, Essex, CM77 8YG Ireland Office: Building 4000 Suites, 4239/4240 Atlantic Avenue, Westpark Business Campus, Shannon, Ireland

PRODUCT CATALOGUE

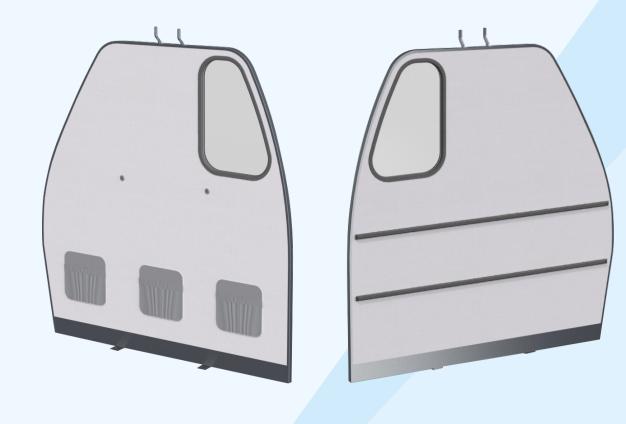

Aerospace Engineering Solutions (AES) is a European Aviation Safety Agency Part 21J (EASA.21J.722), General Civil Aviation Authority (DOA/181) and Egyptian Civil Aviation Authority (ECAA/AW/AE/I0151/R1) Design Organisation Approval (DOA) holder supporting aerospace clients across the globe.

With over 2,500 STC's and Minor changes completed since 2001, AES can deliver engineering solutions for your aircraft cabin integration requirements to the highest level through safety, flexibility, and excellent customer service.

This catalogue highlights a selection of parts and products from simple brackets and placards to soft furnishing, galley units, stowage units, and structural support equipment.

All parts are provided with EASA/CAA Form 1 Release for your aircraft needs.

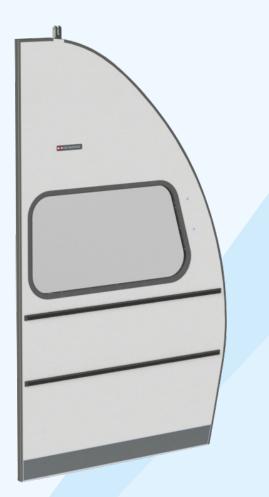

A320 FAMILY FORWARD PARTITION Left Hand & Right Hand

Customised to suit your requirements

- Bespoke branding
- Literature Pockets
- Bassinet Fittings
- Rub strips
- Small or large window
- Installation Hardware
- Choice of 70F1 décor
- One way vision branding
- EASA 21J Minor modification to install

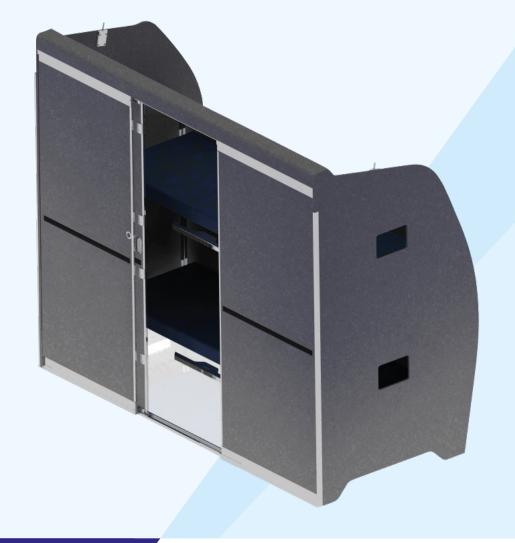

B737 FAMILY FORWARD PARTITION Left Hand

Cost effective solution

- Literature Pockets
- Bassinet Fittings
- Rub strips
- Small or large window
- One way vision branding
- Installation Hardware
- Choice of 70F1 décor
- EASA 21J Minor modification to install

CREW REST MODULE B767

Customised to suit your requirements

EASA STC 10044405

- Supplied with EASA Approved engineering and ICA
- Double bunk bed
- Installation kits provided
- Sliding Door for easy access
- Choice of laminate

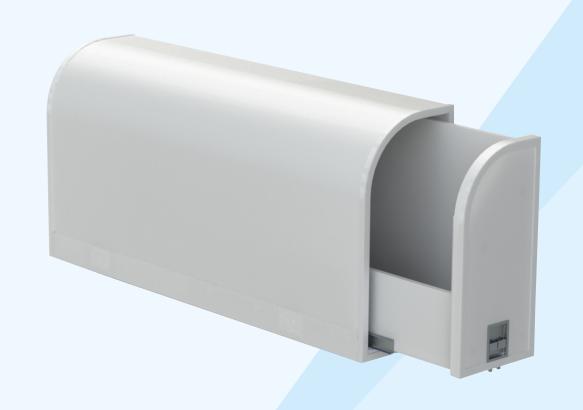

CLASS DIVIDER WITH CURTAINS B737NG

Customised to suit your requirements

- Supplied with EASA Approved engineering and ICA
- Installation kits provided
- Choice of curtain material to suit your airline

8" DOGHOUSE STOWAGE A320 and B737NG

Cost effective solution

- Supplied with installation kits and EASA approved engineering and ICA
- Choice of paint colours or laminates
- Option to include safety equipment provisions within the stowage
- ▶ 10Kg Capacity

erospace engineering solutions

EMERGENCY EQUIPMENT MOUNTING SYSTEMS Various Aircraft

Budget friendly track mounted assembly

- Supplied with installation kits and EASA approved engineering
- Painted to match your interior
- Incorporate bespoke provisions to suit equipment

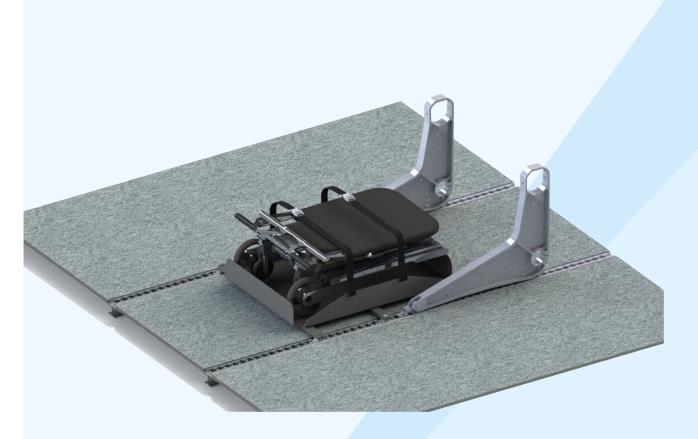

EMERGENCY EQUIPMENT MOUNTING SYSTEMS A321 Family

Free up valuable space in overhead stowages

- Supplied with installation kits and EASA approved engineering
- Painted to match your interior
- Incorporate bespoke provisions to suit your equipment

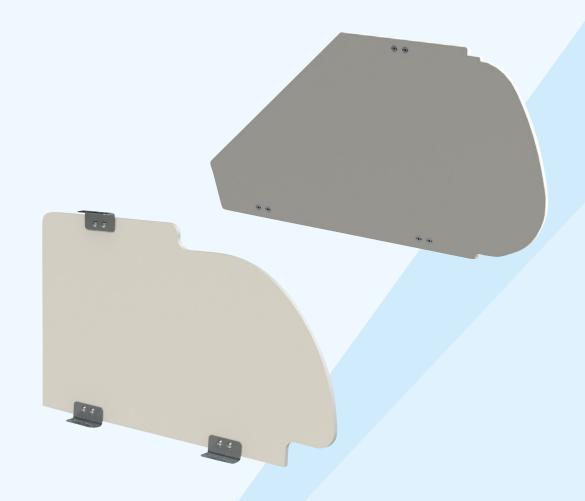

WHEELCHAIR STOWAGE B737 & A320

Budget friendly track mounted equipment

- Supplied with installation kits and EASA approved engineering
- Installed discretely behind rear row seat
- Can accomodate equipment up to 21.3" x 16.3"

aerospace engineering solutions

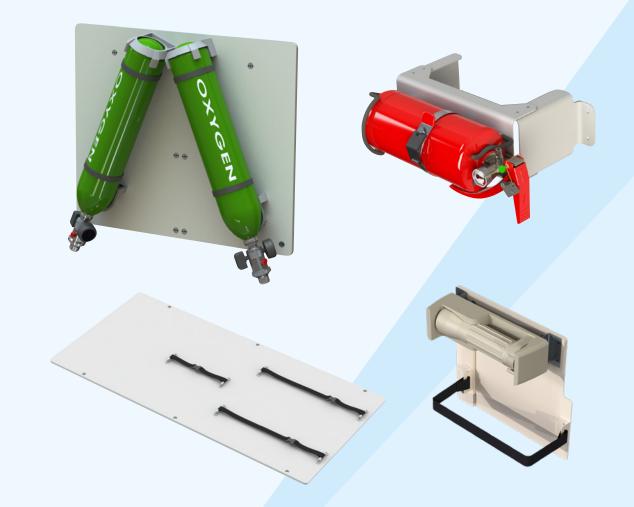

OVERHEAD STOWAGE BIN PARTITIONS B737, B757, B767, B787, A320, A330

Various aircraft options, used to provide separation with overhead luggage compartments for crew or safety equipment

- Supplied with installation kits and EASA approved engineering
- Painted to match your interior
- Optional placards

EMERGENCY EQUIPMENT MOUNTING SYSTEMS B737, B757, B767, B787, A320, A330

Various aircraft options

- Supplied with installation kits and EASA approved engineering
- Painted to match your interior
- Bespoke designs to suit your requirement

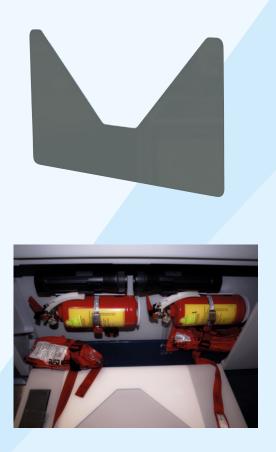

FLIGHT DECK STOWAGE POUCH **B737, B757, B767, B787, A320, A330**

Available for various aircraft

- Supplied with installation kits and EASA approved engineering
- Customised wording to suit your requirement
- Approx. size 8.65" x 5.5" x 7.5"

DOCUMENT STOWAGE B737, B757, B767, B787, A320, A330

Available for various aircraft

- Supplied with installation kits and EASA approved engineering
- Installed below Cabin Attendant Seats/Flight Deck Wardrobe/Flight Deck Console/Overhead Lockers

LITERATURE POCKETS Various Aircraft

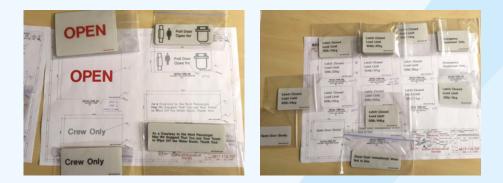

Economic Solution

- Supplied with installation kits and EASA approved engineering
- Optional leather or assembled with your branded leather material

THIS ENGINE IS OWNED GREENWICH LEASING CO., LTD. AS LESSOR AND IS SUBJECT TO A FIRST PRIORITY MORTGAGE IN FAVOUR OF SUMITOMO MITSUI BANKING CORPORATION EUROPE LIMITED AS SECURITY TRUSTEE AND IS LEASED TO DART LEASING & FINANCE LIMITED AND IS SUB-LEASED TO JET2.COM LIMITED

5223-112-737-003 E.P.A.

PLACARDS AND AIRCRAFT PLATES **B737, B757, B767, B787, A320, A330**

Placards, Lease Plates, Selcal Plates

- Supplied with installation kits and EASA approved engineering
- Single or Dual Language options
- Quick turnaround
- EASA Form 1 options for all parts

EMERGENCY EQUIPMENT DEMO KITS AND POUCHES Various Aircraft

Safety First

- Supplied with installation kits and EASA approved engineering
- Customised to suit your airline
- Optional branding available

END CAP REWORK **B737NG**

Cost effective solution

- Supplied with installation kits and EASA approved engineering
- You provide existing endcap for rework or AES can provide a reworked endcap to suit your 189Y configuration

LF-ULD SOLUTION B737, B747, B757, B767, B777, A320, A330 Families, Avro RJ

Low Frequency Underwater Locater Device

CAT.IDE.A.285(f) states that all aircraft with a maximum take-off mass of over 45,000 kg operating over oceanic areas are to be fixed with the Low Frequency Underwater Locator Device

- Supplied with EASA Approved engineering and ICA
- LRU and installation kits provided
- Complete with Novega SID88 Beacon
- Optional FAA Approval available

STRUCTURAL SUPPORTS FOR EQUIPMENT B737, B757, B767, B787, A320, A330

Available for various aircraft

- Supplied with installation kits and EASA approved engineering
- Painted to match your interior
- Bespoke or off the shelf parts provided

This STC is for the installation of the aircraft powered version of Bluebox Aviation Systems' wireless streaming hardware platform, Bluebox Wow, which can be deployed to deliver in-flight entertainment, onboard retail, and other digital services.

Utilising aircraft power eliminates the need for the logistical management of batteries whilst still offering a considerably lighter and lower-cost system than fully fitted W-IFE.

AIRCRAFT POWERED W-IFE INSTALLATION BLUEBOX WOW EASA STC 10076801

Applicable to A320 Family

- Additional aircraft types in progress
- Supplied with EASA Form 1 approval
- Installation kits provided
- Cost-effective solution for on board W-IFE solution
- Lunchbox-sized unit stowed securely in overhead bins.

KITTING & PARTS MANAGEMENT

With an excellent supporting team of partner companies, Aerospace Engineering Solutions can prepare and arrange kits and parts for a wide range of aircraft. We will co-ordinate the purchase of OEM, standard parts, or bespoke parts to satisfy your requirements.

From a small single part supply (a decal for example) to the management of a cabin reconfiguration or In-Flight Entertainment Systems (IFE) retrofit programme, AES has extensive experience in providing this service.

We can arrange manufacture and supply for all our own designed parts. We offer this service for our own engineering packages or 3rd party packages.

ENGINEERING SERVICES VARIOUS AIRCRAFT

Services Aerospace Engineering Solutions can offer

Cabin LOPA	Selcal Code Change	HF2 Install / Activation	Cabin Surveys
PSU Layout & Hook Up	EGPWS Callout Change	Airline Rebrand	Parts Procurement &
Carpet Layout	Galley Insert Installations	Dress Cover Changes	Kitting
